## Product Data Sheet

|                                        |                                                                                         |
|----------------------------------------|-----------------------------------------------------------------------------------------|
| <b>Product:</b>                        | Human Disintegrin and metalloproteinase domain-containing protein 17 250-258, YLIELIDRV |
| <b>Product Code:</b>                   | SP-MHCI-0796-3                                                                          |
| <b>Protein ID:</b>                     | P78536                                                                                  |
| <b>Sequence:</b>                       | H-YLIELIDRV-OH                                                                          |
| <b>Source:</b>                         | Disintegrin and metalloproteinase domain-containing protein 17 (250-258)<br>Human       |
| <b>Amount:</b>                         | 10 mg (10 x 1 mg)                                                                       |
| <b>Purity:</b>                         | Trial Grade: each peptide purified to > 90% (HPLC/MS)                                   |
| <b>Binding Allel Type:</b>             | HLA-A*02   HLA-A*02:01                                                                  |
| <b>Remark:</b>                         | The peptide is supplied as trifluoroacetate salt.                                       |
| <b>Storage conditions:</b>             | Store at -20°C                                                                          |
| <b>Use recommended within 6 months</b> |                                                                                         |

**Application protocol:** <https://jpt.com/support-contact/resources/application-protocols/>  
- please refer to the PepMix protocol for ELISPOT or ICS

Not for human use, for research purposes only
